Relating to: the Life and Public Service of Prime Minister Margaret Thatcher

Prime Minister Margaret Thatcher was born October 13, 1925, in the town of Grantham, and passed on April 8, 2013. Prime Minister Thatcher, an outspoken world leader known as the "Iron Lady", became Europe's first female prime minister in 1979. She led her country to three election victories from 1979 to 1990, the longest tenure by a British prime minister since the early 19th century. Thatcher was an example of strength and character, and a great ally who fostered a close relationship between the United Kingdom and the United States. She stood against communism and saw the Berlin Wall get torn down in 1989. Thatcher implemented sweeping reforms to trade unions, and transferred large sections of public control to private ownership. She is credited with transforming the British economy through reforming and modernizing its industries. A champion of individual liberty and economic freedom, Thatcher's beliefs in hard work helped lead Britain into prosperity.
